 My Person Profile  Dear Experts, please note that the EU institutions will be closed during the Christmas period from Friday the 23rd of December 2022 to Monday the 2nd of January 2023 inclusive. During that time, there may be no one available to respond to your queries, to process payment requests or to validate Legal Entity and Bank Account files. This may affect the processing of payment requests in particular, although we will do our best to minimise the impact. Thank you in advance for your understanding.

National Contact Points for Horizon Europe

The network of National Contact Points (NCPs) is the main structure to provide guidance, practical information and assistance on all aspects of participation in Horizon Europe. NCPs are also established in many non-EU and non-associated countries ("third countries").

Search by

Country Group: Country(ies): Function(s):

Order By: Country Contact Recent Organisation

NCP Services

In general, the following basic services are available in accordance with the [NCP Guiding Principles](#) agreed by all countries:

1. Guidance on choosing relevant Horizon Europe topics and types of action
2. Advice on administrative procedures and contractual issues
3. Training and assistance on proposal writing
4. Distribution of documentation (forms, guidelines, manuals etc.)
5. Assistance in partner search

As the NCPs are national structures, the type and level of services offered may differ from country to country.

What is the NCP network?

Forthcoming

Deadline model **single-stage**

Planned opening date **25 April 2023**

Deadline date **28 September 2023 17:00:00 Brussels time**

Topic description

Expected Outcome:

For the first time this Twinning call adopts a partially directional approach allowing proposals in line with the European Green Deal objectives to have a specific budget. Hence, applicants will have the choice to submit their proposals under either:

Topic A: The (usual) Twinning Bottom-Up (HORIZON-WIDERA 2023-ACCESS 02-01) or,

Topic B: The Twinning Green Deal (HORIZON-WIDERA 2023-ACCESS 02-02).

Applicants should choose the topic (Topic A: Bottom-up or Topic B: Green Deal) to which they are submitting their proposal and cannot submit to both topics. Both topics will retain the same objectives, scope and expected impact.

Get support

Please read carefully all provisions below before the preparation of your application.

[Online Manual](#) is your guide on the procedures from proposal submission to managing your grant.

[Horizon Europe Programme Guide](#) contains the detailed guidance to the structure, budget and political priorities of Horizon Europe.

[Funding & Tenders Portal FAQ](#) – find the answers to most frequently asked questions on submission of proposals, evaluation and grant management. Please check the call updates because the FAQ are subject to modifications.

[Research Enquiry Service](#) – ask questions about any aspect of European research in general and the EU Research Framework Programmes in particular.

[National Contact Points \(NCPs\)](#) – get guidance, practical information and assistance on participation in Horizon Europe. There are also NCPs in many non-EU and non-associated countries ('third-countries').

[Enterprise Europe Network](#) – contact your EEN national contact for advice to businesses with special focus on SMEs. The support includes guidance on the EU research funding.

[IT Helpdesk](#) – contact the Funding & Tenders Portal IT helpdesk for questions such as forgotten passwords, access rights and roles, technical aspects of submission of proposals, etc.

[European IPR Helpdesk](#) assists you on intellectual property issues.

[CEN-CENELEC Research Helpdesk and ETSI Research Helpdesk](#) – the European Standards Organisations advise you how to tackle standardisation in your project proposal.

[The European Charter for Researchers and the Code of Conduct for their recruitment](#) – consult the general principles and requirements specifying the roles, responsibilities and entitlements of researchers, employers and funders of researchers.

[Partner Search Services](#) help you find a partner organisation for your proposal.

TWINNING FOR EXCELLENCE IN
ENVIRONMENTAL RESOURCES PROTECTION

Funded by the
European Union

Glavni koraci pri kreiranju TwiNSol-CECs projekta:

- Izabrati oblast istraživanja u kojoj je tim međunarodno prpoznat i od interesa je za državu, region i EU
 - Formirati konzorcijum (tima partnerskih institucija na projektu) u skladu sa zahtevima poziva (konkursa): Twinning zahteva bar 2 prestižne institucije iz EU zemalja članica ili pridruženih zemalja („*advanced partners*“)
 - Odgovoriti na sve zahtevane elemente koje predlog projekta mora da sadrži:
Excellence, Impact, Implementation

- TwiNSol-CECs konzorcijum

TWINNING FOR EXCELLENCE IN
ENVIRONMENTAL RESOURCES PROTECTION

Funded by the
European Union

Četiri istraživačke grupe na TFNS su se okupile, kako bi udružila dosadašnja iskustva i znanja iz oblasti prethodnih istraživanja:

- Monitoring zagađujućih supstanci u životnoj sredini
- Membranske tehnologije u prehrambenoj industriji i obradi otpadnih voda
- Priprema i primena biomaterijala radi uklanjanja zagađujućih supstanci iz voda
- Razvoj zelenih katalitičkih pristupa

**ZAJEDNIČKA TEMA = PROBLEM ZAGAĐUJUĆIH SUPSTANCI:
monitoring (analiza prisustva u životnoj sredini) i savremeni postupci uklanjanja**

Finansira Evropska unija. Izneti stavovi i mišljenja su, meutim, samo autora(a) i ne odražavaju nužno stavove Evropske unije ili Izvršne agencije EU. Za njih se ne može smatrati odgovornim ni Evropska unija ni organ koji dodeljuje sredstva.

- TwiNSol-CECs istraživačka tema

Funded by the European Union

Contaminants of Emerging Concern - CECs:

**Emergentne zagađujuće supstance =
= zagađujuće supstance od emergentnog značaja**

- *Supstance koje su tek nedavno sa razvojem naprednih analitičkih instrumenata detektovane u životnoj sredini, a za koje se pretpostavlja da imaju ili je već poznato njihovo štetno dejstvo po životnu sredinu i zdravlje ljudi;*
- **njihovo prisustvo u životnoj sredini nije regulisano niti emitovanje kontrolisano;**
 - *u prirodi se nalaze kao rezultat antropogenih aktivnosti (korišćenje i/ili ispuštanje/odlaganje proizvoda koji ih sadrže, industrijski procesi, poljoprivredne mere)*
- **PESTICIDI, FARMACEUTSKI AKTIVNE SUPSTANCE, MIKROPLASTIKA, POSTOJANA ORGANSKA JEDINJENJA FLUORA, INDUSTRIJSKE HEMIKALIJE...**

- značaj TwiNSol-CECs istraživanja

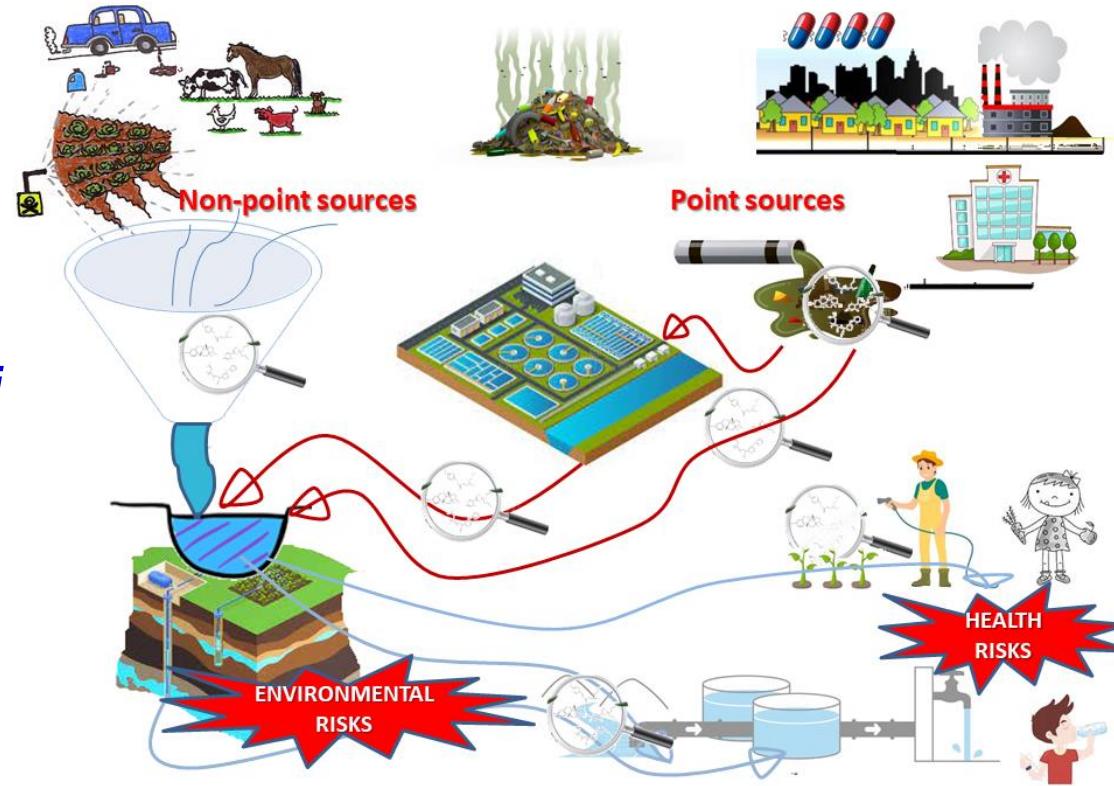

TWINNING FOR EXCELLENCE IN
ENVIRONMENTAL RESOURCES PROTECTION

Funded by the
European Union

Praćenje prisustva CECs u životnoj sredini, kao i razvoj metoda za uklanjanja iz voda, je važno zbog zaštite zdravlja i resursa životne sredine.

- Znajući da se preko 100000 supstanci koristi u industriji i u domaćinstvima, velika je verovatnoća da će mnoge od njih dospeti u životnu sredinu, dovodeći do potencijalno neželjenih efekata po zdravlje ljudi i kvalitet životne sredine.
- Nijedna analitička metoda ne može da da sveobuhvatni odgovor – potrebni su specijalni analitički postupci da bi se dobili što obimniji podaci o prisustvu CECs u životnoj sredini.

- značaj TwiNSol-CECs istraživanja

TWINNING FOR EXCELLENCE IN
ENVIRONMENTAL RESOURCES PROTECTION

Funded by the
European Union

Ispitivanja širokog spektra CECs jedinjenja, prvenstveno u vodama u Srbiji, veoma je važno zbog:

1. Velikih vodenih sistema u zemlji, koji su najčešće deo međunarodnih slivova
2. Obrada otpadnih voda uglavnom ne postoji
3. Površinske vode se u velikoj meri koriste u industriji
4. U poljoprivrednoj prozvodnji, koja predstavlja važan ekonomski sektor u zemlji, površinske vode se koriste za navodnjavanje, i
5. Obim i koncentracije CECs jedinjenja prisutnih u vodama su uglavnom nepoznati, jer postojeće studije su sporadične, bazirane na analizi ograničenog broja jedinjenja unapred izabranih za analizu, te ne postoji celokupna slika o raspodeli i potencijalnom riziku

**Be part of the solution,
not part of the problem.**
Stephen Covey

IZVOR: IZLIVANJE KANALIZACIJE U DUNAV, FOTO: SHUTTERSTOCK

- TwiNSol-CECs struktura i aktivnosti

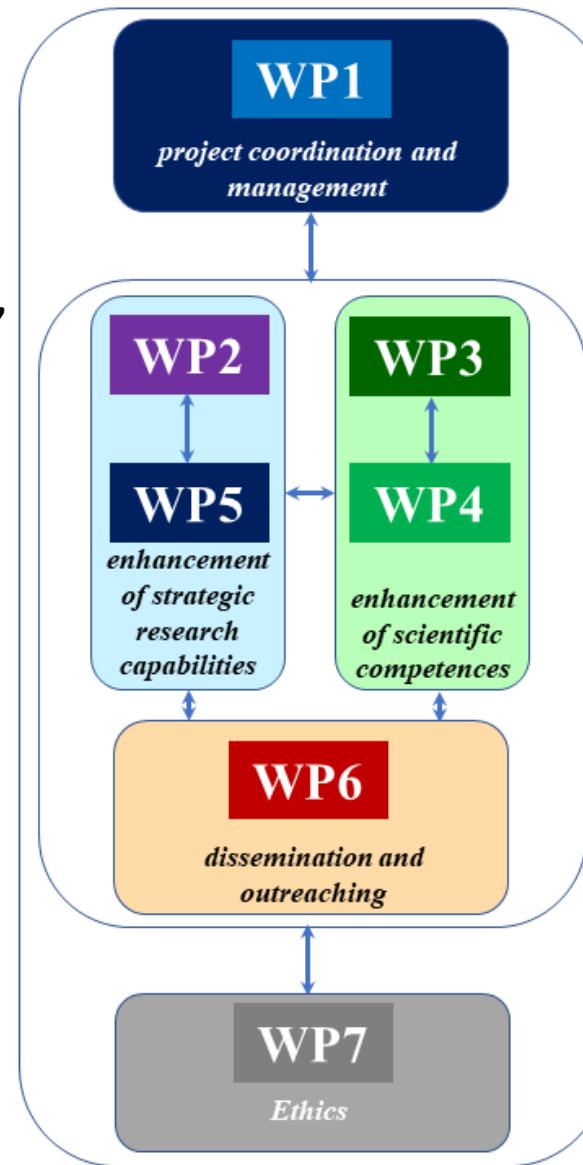

Funded by the European Union

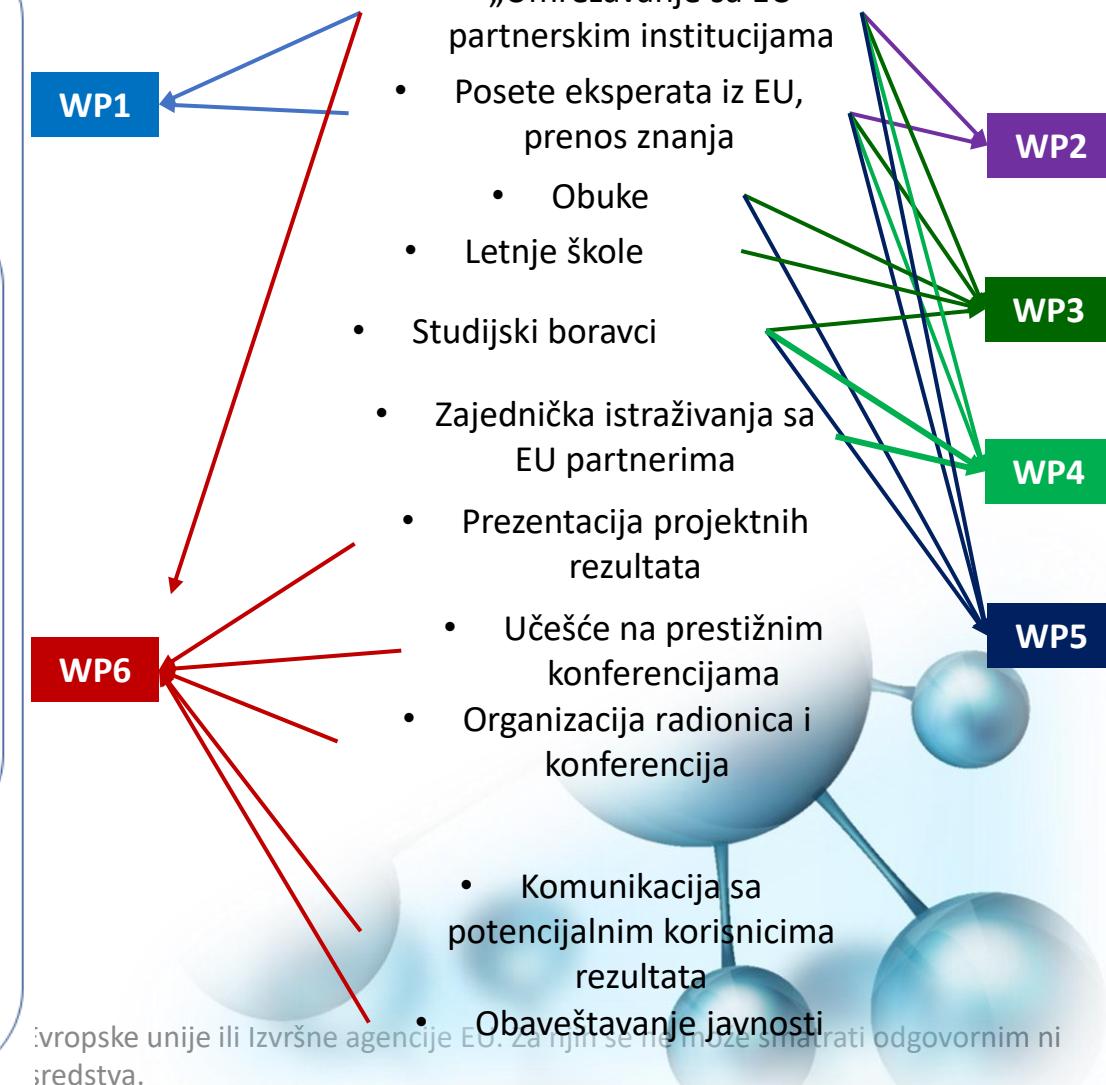

Projektne aktivnosti:

- Upravljanje projektom
- Širenje i promocija projektnih rezultata (predavanja, tribine, sastanci, mediji, organizacija skupova, itd.)
- Unaredjenje naučnih aktivnosti u oblasti zaštite životne sredine (CECs) i vidljivosti i uticajnosti istraživača i TFNS – strateško-institucionalni pristup (strategija istraživanja, upravljanje projektima, mobilnost, treninzi, letnje škole)
- Istraživanja – napredne metode analize i uklanjanja CECs (nadogradnja postojeće opreme, publikacije u međunarodnim naučnim časopisima, konferencijama)

Finansira Evropska unija. Izneti stavovi i mišljenja su, međutim,

TWINNING FOR EXCELLENCE IN ENVIRONMENTAL RESOURCES PROTECTION

- TwiNSol-CECs aktivnosti

TWINNING FOR EXCELLENCE IN
ENVIRONMENTAL RESOURCES PROTECTION

Funded by the
European Union

Istraživačka komponenta TwiNSol-CECs:

- Nadogradnja postojeće napredne analitičke instrumentalne opreme UHPLC-HRMS – softverskom alatkom koja omogućava da se detektuje širok spektar CECs jedinjenja
- Nadogradnja postojeće analitičke instrumentalne opreme GC-MS pirolitičkom jedinicom za kvalitativnu analizu mikroplastike u uzorcima vode
- Nadogradnja opreme za membranske separacione procese
- Ispitivanje CECs u uzorcima vode, zemljišta, useva
- Ispitivanje efikasnosti membranskih procesa u uklanjanju CECs iz vode
- Ispitivanje efikasnosti biomaterijala i katalitičkih procesa u uklanjanju CECs iz vode

Glavni cilj:

- **Unapređenje naučne i inovativne izvrsnosti TFNS u različitim aspektima ispitivanja CECs, integrisanog u mrežu evropskih centara izvrsnosti, doprinoseći nacionalnom i regionalnom naučnom i ekonomskog napretku i blagostanju i harmonizaciji naprednih istraživačkih i inovativnih aktivnosti važnih za ukupnu bržu i održivu tranziciju cele Evrope u skladu sa Evropskim zelenim dogовором („European Green Deal“ - EGD) ka nultom zagađenju životne sredine**

- TwiNSol-CECs uticaj

TWINNING FOR EXCELLENCE IN
ENVIRONMENTAL RESOURCES PROTECTION

Funded by the
European Union

Očekuje se uspostavljanje odgovarajućeg, stabilnog i održivog okvira za unapređenje strateškog pristupa istraživanjima na TFNS, uključujući i snažni sistem podrške istraživačkim projektima i njihovog upravljanja, što će rezultovati

- većim brojem naučnih publikacija i međunarodnih projekata čime se povećava uticajnost i vidljivost istraživača i TFNS,
- približavanjem naše države i WB regiona glavnim evropskim tokovima

- TwiNSol-CECs konzorcijum
